MILWAUKEE:

MONDAY MORNING, MARCH 16.

Don't Believe in the Deluge.

The New happily illustrates the old story of the fellow who applied to be taken into the Ark, and, on being refused, irreverently invited the patriarch Noah, to "go shudder with his old Ark, as he didn't believe it was going to be much of a shower after all." The News holds the same concurrent faith as to the fast rising waves, which threaten to submerge the Federal Administration and the National Democratic Party. It thinks the result of the New Hampshire election "no great affair," and coolly tells its readers that last year the Opposition carried the State "by five thousand majority, and on 'last Tuesday they obtained for their candidate a majority of less than four thousand!" Such is the News' version of the story. Now contrast this fiction with the fact. Last year, the vote for Governor, in New Hampshire, stood as follows—Halle (Rep.) 24,765; Wells (Dem.) 21,255—Republican majority 3,408. This year, in all but two towns, which will very nearly the result over two or three hundred votes, Halle's majority for Governor is 4,747—showing a Republican gain, in one year, of 1,371! The Legislature, too, which elects a U. S. Senator, is Republican by more than two to one. Will the News publish the figures, or persist in its false hood?

**The "Scorbutors" Swindle.**—There is a clique in this city which aspires to rule the people, and to appropriate to itself the wealth of Milwaukee. James S. Brown, Alvin E. B. G. Watkins, Dr. H. H. Bachman, and other "Scorbutors" are the ruling spirits. Under the guise of reformers, they seek to force upon the people of this city a charter, concocted by them in secret, before final submitting it to the people for their adoption or rejection.—News, of Saturday.

It is after this decent fashion, that the News, the organ of our present City ma-administration, assault the Committee of private citizens, who have been industriously engaged, for two months past, in ferreting out abuses and suggesting measures of Reform. We much regret the temper of the People of this city if that sort of argument reconciles them to longer endurance of the evils under which they have suffered and bled these five years past.

**Ex-Libidion at Washington.**—The Washington correspondent of the N. Y. Courier, writes in regard to the prospects of the LeCompton Swindle:

The Administration members calculate upon a majority, and undoubtably have their labored. Nubick of Ind., who voted with us on the 8th of February, has rated back to LeCompton. Horace P. Clark will go with the Adminstration. Its triumph is certain by ten or twelve majority.

Mr. Green, a messenger from Kansas, arrived at Washington, with the testimony on the funds taken by the Commissioners appointed by the Legislature, for their exposure. He has satisfied himself of the adoption of the LeCompton trick here, and says the people are getting in readiness to fight.

Californian, it is alleged, has come to the determination to reject the Delayed Crossing returns, and to throw out 700 votes cast at Leavenworth City. This will give the LeComptonists possession of the proposed new State government in all its strength.

The consummation of this LeCompton Infamy at Washington will be the signal for an uprising among the Free-States of Kansas, akin to that of our Revolutionary Forefathers when they heard the tidings from Lexington and Concord. They will resist and ought to resist, to the death, if need be, this infamous attempt of the Democratic National Administration to fatten a Pro-Slavery yoke about their necks.

**Wisconsin State Fair.**—The officers of the Wisconsin State Agricultural Society are about to decide where the next State Fair shall be located. We received a visit on Wednesday from Mr. Willard, the president of the society, and Mr. Powers, the Secretary, from whom we learn there are three points in the state to which the fair may be removed, and confided, viz.: Milwaukee, Madison and Janesville; and that the place which shall give the most satisfactory bonus to the society, and which under all circumstances, is situated the best for the accommodation of the Society will select.

We hope that the necessary measures may be taken to secure the location of the next State Fair in this city. A larger area of the State and a greater number of people can be accommodated by the location than any other. We can add, too, to the ordinary attractions of a State Fair by putting up a Military Encampment and a Regatta. Who will take this matter in hand, and see that a satisfactory bonus is offered to the State Agricultural Society in behalf of Milwaukee?

**New York Spring Fashions.**—Revolutionaries is "all the rage" in the Empire State, this spring. The town elections have resulted very generally in the triumph of the Republican candidates. The following summary of the results on Superstition, in all the counties whose elections have yet been held, is taken from Albany Evening Journal of the 10th inst.:
